PROFESSIONAL SUMMARY

During my internship for my Bachelor's degree, I developed my organizational and teamwork skills, including decision-making, time management, flexibility, and coping with change.

Throughout my Master's program, I took online courses in addition to those at the university. As a result, I have acquired profound knowledge in using Python for a wide range of tasks such as analytics, statistics, data visualization, and evaluation. In addition to Python, I took lectures on SketchEngine, Voyant tools, AntConc, Praat, and ELAN. Over the courses, I analyzed a large variety of corpora. In the process of online learning, I have taken courses on SQL (MySQL, PostgreSQL, and SQL Server), Excel, and Power BI. As a consequence of long-term practices, I am able to use the above-mentioned tools to perform data analysis.

GlobalTranslations LLC, Baku, Azerbaijan — *Internship*

February 2022 - May 2022

- Translations of documents in different fields
- Languages applied in this internship: Azerbaijani, Turkish, English

EDUCATION

Bachelor's of Arts: Translation in English
Azerbaijan University of Languages - Baku, Azerbaijan
